THE LENTEN SEASON IS HERE.

Official Rules and Regulations to be Observed by All Catholics in This Diocese.

Right Reverend William J. Kenny, bishop of St. Augustine, Fla., has issued the following official regulations for Lent:

Ash Wednesday, the first day of Lent, falls on the 8th day of March.

1. All the faithful who have complet. ed their twenty-first year, unless exempt by dispensation or some other legitimate cause, are bound to observe the last of Lent.

2. They are to make one meal only a day, except on Sundays.

3. The meal permitted on fast days is not to be taken until about noon.

4. A small refreshment, commonly called collation, is permitted in the evening.

5. The following persons are exempt from the obligations of fasting: Persons under twenty-one years of age, the sick, nursing women, those who are obliged to do hard labor, and those who through weakness cannot fast without great prejudice to their health.

6. The faithful are reminded that, besides the obligation of fasting imposed by the church, this holy season of Lent should be, in a marked manner, a time of earnest prayer, of sorrow for sin, of seclusion from the world and its amusements, and of generous alms giving.

By virtue of an indult to the United States, dated August 3, 1887, the following special dispensations are granted:

First—The use of flesh meat is permitted at all meals on Sundays, and once on Mondays, Tuesdays and Saturdays, with the exception of the second and last Saturday of Lent. But flesh meat and fish are not to be used at the same meal during Lent, even on Sundays.

Second—The use of butter, cheese, milk and eggs is also permitted every day in Lent.

Third—It is allowed to take in the morning some warm liquid, as tea, coffee or thin chocolate made with water, and with that liquid a small piece of bread.

Fourth—Those for whom the hour of noon may be an inconvenient time for dinner, may invert the order and take their collation in the morning and their dinner in the evening.

Fifth—The use of hogs' lard or dripping, instead of butter, is authorized in preparing the permitted food.

Sixth—Persons exempt from the obligation of fasting are free to take meat more than once on those days when its use is granted by dispensation.

The Paschal time extends from the first Sunday in Lent till Trinity sunday, during which time all Catholics who have attained the proper age are bound to receive worthily the holy communion. The holy season of Lent is also a very proper time for children to make their first confession, which they ought to do generally at about the age of seven years. Parents should see to this.

Entertainment at Hotel Ormond

A vaudeville entertainment was given at the Hotel Ormond Monday by the guests of the hotel, the proceeds of which were for the benefit of the Village Improvement Association. The opening number was "I Can't Do This Sum," with Dorothy Seamans as Little Bo Peep, Dorothy Adriance as little Red Riding Hood, Mary Stanial, Jim and Allen Adriance, Bobby Shafto, Purcell Carnell, Little Boy Blue, Hubert Price, Jack and Helen Mcpherd, as Ann.

Several skits on the same present were sung and occasioned much laughter and applause.

"The Little Yaller Coon," by Snow Ball sextette followed, and after much guessing the soloist was discovered to be Miss Horace Moore-head, while the other fair ones were popular ladies about the hotel.

"Tom Thumb," the trick pony, who has been in training for five weeks at the stable under the tuition of Prof. Jack McGeachen, appeared next and showed himself a remarkable little fellow to have learned his lesson so well in so short a time. He did several clever things, such as picking up certain colored handkerchiefs when told, telling how old he was, how many days in the week, etc., shaking his head in refusal to do certain things until his lumped sugar came, when he rushed to do the bidding of his master and showed clearly how thoroughly had been his training.

Mrs. E. Payson, Philadelphia. G. D. Jones and wife, Columbus, O. A. C. Eaton, Stafford, Conn.; T. A. Quirk and wife, Buffalo, N. Y.; J. H. Gale and wife, Hunter, N. D.; J. C. Deacon, F. S. Wright, Chicago are guests of The Palmetto.

WHAT'S IN A NAME?

By Shakespeare

'Tis but the name that is my enemy;
Thou art thyself, though not a Montague.
What's Montague? it is nor hand, nor foot,
Nor arm, nor face, nor any other part
Belonging to a man. O, be some other name!
What's in a name? that which we call a rose
By any other name would smell as sweet;
So Romeo would, were he not Romeo called,
Retain that dear perfection which he owes
Without that title. Romeo, doff thy name;
And for thy name, which is no part of thee,
Take all myself.

THE BEGGAR TRUST.

A Scheme That For a Time Was a Success In New York.

Several years ago a one legged youth named Bernstein, who had left a comfortable home to engage deliberately in begging, conceived the idea of organizing a combination of limited numbers of panhandlers in the Park row district of New York. He picked out strategic spots throughout the city and selected a man to beg in each. These men were always particularly well adapted to their posts: a blind man on Broadway, a crust traveler there, a maimed youth somewhere else. In order that the beggars might not be molested by the police a lookout was appointed for each, and in order that the capitalized interests might be conserved Kempton employed swindlers to observe how profitably the beggars attended to business and to collect hourly the earnings of each. In case of arrest each member of the band was assured of legal representation, to be paid for out of the earnings of the pool.

The scheme thrived for many months, and at one time there were thirty men in the combination, which became a close competition of greed and power. There is no knowing to what extent it might have extended nor how influential it might have become at last had not the natures of the organization given it some prominence and caused color of the smoke which issues from the mouth of the smoker.

TOBACCO SMOKE.

The Reason That Some of It Is Blue and Some Gray.

Smoke consists of minute particles of solid or liquid matter suspended in the air, and its color depends partly upon the chemical constitution of such particles, but also largely upon their size. Exact experiment has shown that, as the size of minute particles suspended in air is gradually increased, they give rise to colors varying from sky blue down through the whole range of the spectral scale. This is the cause of sunset and sunrise colors in the sky. Its effects can also be traced in the case of the two kinds of tobacco smoke, distilled by the nearly thirty of the carbonaceous products. The smoke given off from the heated surface of the burning tobacco in the bowl of a pipe consists of matter all of which has been highly heated and very fully oxidized and decomposed. It consists mainly of exceedingly small, solid particles, exhibiting by virtue of their smallness a bluish color. On the other hand, that smoke which has been drawn through the tobacco into the mouth of the smoker carries with it a relatively large quantity of water and hydrocarbons, which are condensed upon the solid particles above mentioned. The relatively large size of such particles explains the well known grayish

GREEK SUPERSTITIONS.

Some of the Old Mythological Beliefs Still Prevail.

"Some of the superstitions of the old mythologic religion still prevail among the peasant classes in Greece," said a native of that country. "Nor are the educated classes without such beliefs, such as that harm comes from looking at the moon over the right shoulder. The belief in the three fates, the evil eye, the vampires and the nereids is also widespread. Many of the people telling us old women, the fates are supposed to come down from Olympus three days after the birth of a child and to hold a meeting to determine its fate. Consequently a table containing many dainties is set out for their delectation. Especial care is taken lest the old ladies be enraged at not having enough good things to eat.

"No woman desires to be left alone after a child is born, believing that the ugly old women may become jealous and wreak some awful vengeance. Small is therefore assured on the faces of the youngsters so that this jealousy may not become excited.

"The young Athenian women frequently go to the ancient tombs near Athens and, calling upon the fates, beg them to reveal the identity of their future husbands, singing. From the top of Olympus, where are the fates, there is my own fate?"—Washington Post.

Lucky to Be Alive.

Patient—Great Scott, doctor, that's an awful bill for one week's treatment! Physician — My dear fellow, if you knew what an interesting case yours was and how strongly I was tempted to send it to a postmortem you wouldn't grumble at a bill three times as big as this.—Chicago Tribune.

Money may not make the man, but that doesn't prevent the man from trying to make money.

AN ASPHALT LAKE.

The Way the Stuff Is Mined and Prepared For Market.

The largest South American asphalt lake in Venezuela, consists of a dark brown thick deposit of semifluid and solid substance surrounded by banks from three to six feet high. In the center of this lake is a continuous ejection of hot fluid asphalt, accompanied by large bubbles of gas.

The negro skinned workmen excavate it in pieces weighing in the neighborhood of twenty-five pounds, section forty feet in area and about four feet deep being worked at one time. As quickly as freed from its surroundings it is placed in large tubs, resting upon small flat topped tram cars operated upon a narrow gauge road. The native workforce is constantly moving, thus preventing a continual relaying of the tracks.

The freshly excavated asphalt is conveyed to the shore, where the tubs are lifted by tramlic power to an aerial tramway, by which it is conveyed to the large wharf situated on the Orinoco river, about five miles distant from the lake. Here it is weighed and dumped into vessels which convey it to the foreign lands.

Upon its arrival at a factory it is heated until the water is expelled and the earthy material cast to the bottom of the large vats, and it is passed through a sieve into barrels, where it solidifies. It is then ready for commerce.—New York Tribune.

Church Improvement.

The First Baptist Church of this city has just completed the putting in of a fine piece of work in the way of hinging doors, made of black cypress, between the main auditorium and the Sunday school room and the vestibule.

The ladies have added largely to the electric lighting of the church by additional curling clusters and side brackets, besides the supplying of the pews with neat envelope holders.

The people of the church feel deeply grateful to the Misses Jennie M. and Matilda Smith, Miss Sarah Jarvis and Mrs. Washington Jarvis, all of Pittsburg, Pa., who so kindly contributed the needful in making the above improvements possible.

These improvements, together with the pews, pulpit furniture, carpet and choir railing, but recently installed, places this church building now second to no other in Daytona.

Fishing Party.

Messrs. A. J. Demary, M. L. Stanley and J. O. Owens were the guests of J. L. Russell on a fishing trip to the inlet yesterday.

A number of blue fish and trout were secured and the party thoroughly enjoyed the trip

Euchre Party.

The guests of The Austin assembled last night to contest for some handsome prizes offered for the progressive euchre contestents. Eight tables were brought into requisition to seat the large number of contestents, and the event proved the most enjoyable one of the season at that hotel.

Mrs. C. C. Boyce, of Escambia, Ala., won the first ladies' prize a silver orange knife.

Frank F. Thorpe, of Cincinnati, won the gentlemens' prize, a deck of cards in a hount leather case.

The consolation prize was awarded to Mrs. H. Whyte, of Montreal, Canada.

At the completion of the game delicate and elaborate refreshments were served in the dining hall.

THE RIDGEWOOD ANNUAL BALL

At Least Three Hundred Guests Attended This, The Most Important Social Event of the Season.

The annual ball at The Ridgewood, the largest hotel in the city, was attended last night by over three hundred guests.

The hotel was brilliantly illuminated for the occasion and the decorations consisting of ferns, evergreens and superb American beauty roses, were tastefully and artistically arranged.

Mr. and Mrs. E. D. Langwerty graciously received the guests upon their arrival, and did all in their power to insure a pleasant evening for their guests.

Dancing commenced promptly at nine in the large dining room, the music being furnished by the hotel orchestra and continued until 12, The handsomely gowned ladies and gentlemen in full dress making a scene long to be remembered by those fortunate enough to be present.

Among the prominent visitors present were; Mrs. Robinson, Miss Winn, Mr and Mrs. Orr, J. E. Allen, Mrs. Haines, Mr. and Mrs. Otter, Dr. and Mrs. Potter, Mr. and Mrs. Thompson, Carl Knappe, guests of The Clarendon; Mr. Dean and daughter, Mrs. Carswell, Mrs. Barnes, Mrs. Mulligan, Mrs. Goodwin, guests of The Desgland; Mr. and Mrs. and Mrs. Kenney, Cleveland; Mr. and Mrs. Edward Steward, Miss McFarland, Toronto, Canada; Edw. Haublin, Mr. and Mrs. Lewis, Chicago; Miss Sandusky, Louisville, guests of The Seaside.

Mr. and Mrs. A. J. Demary, Buffalo; Chas. Smith, Detroit; Dr. Lngee, Lynn, Mass.; Chas. Philbrick, Mr. and Mrs. M. L. Stanley, New Britian, Conn. guests of The Colonnades.

Benford Deacon has the thanks of the editor for a fine string of sheepshead, the product of Mr. Deacon's successful venture on Tuesday. He reports fishing as being fine down the river.

Fire Alarm.

Last night a fire broke out in the plumbing establishment of Jno. Osborn, which was promptly extinguished by the fire department.

The cause of the fire is not known but when discovered a pile of oakum was fiercely burning and an alarm was quickly sounded. The fire department responded promptly and the fire was extinguished before any serious damage was done.

The initial issue of John G. Collins' new Tallahassee paper, The Free Democrat, is before us. It is a neat sheet mechanically, and bears the earmarks of an able editorial writer. The News extends the hand of fellowship to the new paper and hopes to see it flourish.

ANIMAL ANTIPATHIES.

The Four Horses Hate of Camels and Cattle of Dogs.

"In some towns they won't let us show," said the circus animal trainer, "unless we have no camels with us. Camels are a serious drawback to shows. Horses are so much afraid of them that lots of towns won't let a camel enter their gates.

"A horse won't go near a piece of ground a camel has stood on. The very smell of a camel in the air will make a horse frantic and scared, and this fear isn't only found occasionally in a horse here and there. It is found in every horse all over the world. Queer, isn't it? I often wonder why it is. Cattle hate dogs in the same way, and cats hate dogs so too. Here, though, we can account for the hatred. Dogs, in primitive times fed on cattle, no doubt, and even today here and there they kill and feed on kittens.

"Horses love dogs. I'm sure I don't know why. Dogs fear no animals but panther and leopards. You can take a dog up to a lion's or a tiger's cage, and he will show no fear, but take him up to the cage of a puma or a leopard and he will tremble and moan and slink away out of sight.

"All very puzzling, isn't it?"—Philadelphia Bulletin.

TWO GREAT LEADERS

Disraeli and Gladstone and Their Enmity Toward Each Other.

Disraeli was too much for Gladstone. The great Liberal had but one adjective for his Tory opponent, and that was "dreadful." Never during the years of their opposing leadership had the two any social relations. Each made light of the other's literary efforts. Some one asked Lord Beaconsfield to define the difference between a misfortune and a calamity, and unhesitatingly it came: "If Mr. Gladstone should fall into the Thames, it would be a misfortune. If any one should pull him out, it would be a calamity."

The last of all the Gladstone-Disraeli stories tells how once at a London dinner party the ladies at the table were asked which they would marry if they had to marry one or the other, the great Liberal or the great Tory. All declared promptly in favor of Beaconsfield save one, who hastened to explain that she had rather wed Gladstone that she might elope with Disraeli and so break her husband's heart. This happening was of course retold to Disraeli, and so pleased was he over it that he suggested a cabinet office on the chances of a continental war in order to relate it.—Warwick James Price in Criterion.

THE BIG DIPPER.

It Is the Near Hand of the Woodman's Celestial Clock.

The pole star is really the most important of the stars in our sky. It marks the north at all times. It alone is fixed in the heavens. All the other stars seem to swing around it once in twenty-four hours.

But the pole star of Polaris is not a very bright one, and it would be hard to identify but for the help of the so called pointers in the "Big Dipper," or "Great Bear." The outer rim of the dipper points nearly to Polaris, at a distance equal to three times the space that separates the two stars of the dipper's outer side. Various Indians called the pole star the "Home Star" and the "Star That Never Moves," and the dipper they call the "Broken Back." The "Great Bear" is also to be remembered as the pointers for another reason. It is the hour hand of the woodman's clock. It goes once around the North Star in about twenty-four hours, the reverse way of the hands of a watch, that is, it goes the same way as the sun and for the same reason—that it is the earth that is going and leaving them behind.—Country Life In America.

Do Bargain Hunters Smile?

"I went out shopping the other afternoon," said a well known pastor of New York city, "and, having in mind the hymn Brighten Your Way With a Smile, I looked about to see if there were any smiles on the faces in the big department store.

"In all that hurrying and pushing and worrying real, genuine, hearty smiles were not to be found. I saw one smile, but it looked like a plant that had been watered in a cellar. It was bleached and wan."—New York Press.

The Cincinnati Reds will arrive in Jacksonville today, and base ball fans will have an opportunity to see some great practice games. The first game is scheduled for next Sunday.

The Suwanee Democrat at Live Oak has installed the latest improved Monotype type setting and casting machines, and hereafter that paper will enjoy the luxury of machine set type. The Democrat is a good paper and we congratulate Messrs. Sherwood & Pound on their enterprise.

Hotel Accommodations.

A report being circulated to the effect that people have had to sleep in the depot lately, because no accommodations could be secured, is absolutely false.

The hotels are all doing a good business, better than ever before, but rooms at some one of the many hotels and boarding houses are vacant every night.

Every night people may be seen sleeping at the depot, but they are of the class who either from choice or necessity save a hotel bill by waiting there for their trains.

Elks Lodge at Miami.

A lodge of the Order of Elks was instituted at Miami, Monday night, with twenty-seven charter members. The membership is composed of the best business men in the city, and the new lodge promises to be one of the strongest in Miami in a very short time. W. M. Brown was elected Exalted Ruler. The new lodge will occupy the rooms recently vacated by the Taxedo Club.

State Fair at Tampa.

Tampa intends holding, next winter, a grand state fair, and judging from the success achieved last year at the South Florida Fair and Mid-Winter Exposition, the undertaking will be the most successful ever held in a Southern state. The recent fair outstripped any ever held in Florida, both in point of attendance and character of exhibits, for which the largest prizes ever given in a South ern state were awarded, and it is intended that the next fair, to include all counties in the state instead of only those in the southern section, shall eclipse the first in every way.

The high officials of railways traversing and otherwise interested in Florida, are greatly interested in the movement and have proffered their hearty cooperation in the matter of securing low rates from other states, in advertising the fair and State and in securing exhibits, which will be transported to Tampa free of charge by railways, steamship lines and express companies.

Tampa, being possessed of the largest and most conveniently located fair grounds in the State, also hotel accommodations for thousands, is in every way equipped for holding such a fair. To carry out the gigantic plans of the movement, the Florida State Mid-Winter Fair Association is being organized, the officers, directors and stockholders of which are to be chosen from every county in the State in order that all may have absolutely equal representation. Mr. T. J. L. Brown, who inaugurated the South Florida Fair and pushed it to success, is behind the new movement, which is a guarantee of its success.

Radium Explanations.

One of the prettiest experiments that will be presented at the forthcoming Rathbun entertainment in this city, is the placing of some radium near a fluorescent screen, the audience seeing the effect of the wonderful casting off of radium vapor or emanations that constantly goes on in this remarkable substance and which scientists estimate will continue uninterruptedly for millions of years to come. The screen is made to appear like a heaven of flashing meteors, among which stars by thousands shine forth suddenly, and as quickly die away. this natural fireworks display containing unexcelled. M. Curie, after seeing this beautiful vision, spoke of it as one of the most impressive sights he had ever witnessed.

The home of N. W. McClellan, in Kingston, will be sold at auction tomorrow morning.

The Suwanee Democrat at Live Oak has installed the latest improved Monotype type setting and casting machines, and hereafter that paper will enjoy the luxury of machine set type. The Democrat is a good paper and we congratulate Messrs Sherwood & Pound on their enterprise.

Hotel Accommodations.

A report being circulated to the effect that people have had to sleep in the depot lately, because no accommodations could be secured, is absolutely false.

The hotels are all doing a good business, better than ever before, but rooms at some one of the many hotels and boarding houses are vacant every night.

Every night people may be seen sleeping at the depot, but they are of the class who either from choice or necessity save a hotel bill by waiting there for their trains.

Elks Lodge at Miami.

A lodge of the Order of Elks was instituted at Miami, Monday night, with twenty-seven charter members. The membership is composed of the best business men in the city, and the new lodge promises to be one of the strongest in Miami in a very short time. W. M. Brown was elected Exalted Ruler. The new lodge will occupy the rooms recently vacated by the Tuxedo Club.

State Fair at Tampa.

Tampa intends holding, next winter, a grand state fair, and judging from the success achieved last year at the South Florida Fair and Mid Winter Exposition, the undertaking will be the most successful ever held in a Southern state. The recent fair outstripped any ever held in Florida, both in point of attendance and character of exhibits, for which the largest prizes ever given in a Southern state were awarded, and it is intended that the next fair, to include all counties in the state instead of only those in the southern section, shall eclipse the first in every way.

The high officials of railways traversing and otherwise interested in Florida, are greatly interested in the movement and have proffered their hearty co-operation in the matter of securing low rates from other states, in advertising the fair and State and in securing exhibits, which will be transported to Tampa free of charge by railways, steamship lines and express companies.

Tampa, being possessed of the largest and most conveniently located fair grounds in the State, also hotel accommodations for thousands, is in every way equipped for holding such a fair. To carry out the gigantic plans of the movement, the Florida State Mid-Winter Fair Association is being organized, the officers, directors and stockholders of which are to be chosen from every county in the State in order that all may have absolutely equal representation. Mr. T. J. L. Brown, who inaugurated the South Florida Fair and pushed it to success, is behind the new movement, which is a guarantee of its success.

Radium Explanations.

One of the prettiest experiments that will be presented at the forthcoming Radium entertainment in this city, is the placing of some radium near a fluorescent screen, the audience seeing the effect of the wonderful casting off of radium vapor or emanations that constantly goes on in this remarkable substance and which scientists estimate will continue uninterruptedly for millions of years to come. The screen is made to appear like a heaven of flashing meteors, among which stars by thousands shine forth suddenly, and as quickly die away, this mimic fireworks display continuing unceasingly. M. Curie, after seeing this beautiful vision, spoke of it as one of the most impressive sights he had ever witnessed.

The home of N. W. McClellan, in Kingston, will be sold at auction tomorrow morning.

Fare one way.....$3.50
Round trip.....6.00

74 Miles from St. Augustine.

Fare one way.....$2.20
Round trip.....4.00

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and nearest between its source at Mosquito Inlet and its outlet at Mosquito Inlet. It is in latitude 29 twenty four miles from St. Augustine and one mile from the Atlantic ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is such that is known as high land and has a most beautiful growth of majestic forest trees, and among these trees is the palm of today, with its beautiful cottages and well shaded walks and streets. The result is that all along the wide avenues the interest the tourist are lofty live oaks, palm and hammocks, many of them draped with graceful festoons of the gray spanish moss, that sweeps the ground in waves, and among these are the cocoanut tall tropical palmettos, glossy leaved magnolias, fragrant bays and coral berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the cape jessie climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the towns greatest attractions.

The main avenues that run parallel with or interest the river are all five feet wide, except Beach street, which is about sixty-five feet, but has a half mile of open, beautiful water shutting upon its eastern side, where the tall waves ride and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which tempers and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers as many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, breezes and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those seeking homes in the South and ranking second only to health fulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, steam laundry, meat markets, novelty works, an open house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 200 in the corporate limits. This *fine* is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the schooner than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth; by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona Ormond Beach is hard as macadam, and a level stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is hard for 100 feet and neither carriage wheel, bicycle or pedestrian can make hardly visible imprint on the smooth and well-packed sand. It is no unusual sight to see well-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard shelled pulverized beach sands bring the lovers of the wheel and vehicles into direct touch with the residents over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbtide, measures about 500 feet, and the average depth of the surf tumblers about two feet. A conformation of the beach keeps the ocean from one to two feet in depth under normal conditions, making the beach an ultra favorable and absolutely safe place for surf-bathing there the infant as well as the aged veteran of many winters, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

ying between river and ocean is one half mile wide, and is being rapidly improved, there are many fine cottages and several good hotels, as pavilion and a large casino.

A Remarkable Feature

of Daytona has been the yearly increement in the style and value of the buildings that are being erected or homes. Men of capital of the North and West have become awakened to the advantages for winter residence, and valuable lots are being purchased and costly homes, beautiful in design and finish are being erected, and beautiful homes, the abode of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

Steamer "CHEROKEE" starting Jan. 25.

FOR THE TOMOKA RIVER, Mondays, Wednesdays and Fridays, leaving Conrad's dock opposite bank at 9:00 a. m., middle bridge 9:15, peninsula bridge 9:30 and Ormond at 10. FOR PONCE PARK and NEW SMYRNA, Tuesday, Thursday and Saturday, leaving peninsula bridge 8:30, middle bridge 8:40, Conrad's dock 9:00 a. m. For particulars apply to Capt. Mc-Fadden's shell boat Conrad dock, phone 125, or Heath & Dickinson, phone 6 3R

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29 seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth; by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 500 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbtide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

of Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
